Summary

Experienced Tech Lead with over 5 years of expertise in software development, specializing in web and mobile applications utilizing Node.js and React.js as primary technology stacks. Proficient as a full-stack developer, I have successfully delivered numerous projects for both private enterprises and startups. My roles have consistently encompassed leadership as a tech lead and hands-on engagement as a full-stack developer. Eager to architect improved problem-solving approaches for intricate challenges, I maintain a proactive stance towards adopting emerging technologies and tools to address evolving demands.
